**New Business:**

- **We have an applicant for treasurer** – Brenda Lee Collette
- **Fence lines and driveway pavement** – Our **county** rules and consequences
- **Road sign replacement** – need about six and to repost some signs that are not to the depth code.
- **Chip or Otta Seal** –
  - **Pros** – Permanent surface for eliminating dust, pot holes and washboard; surface lasts 10 years before requiring additional layers; less ice and earlier melting of roadways; eliminate “donuts” and other damage to our roads; eliminates need for expensive dust abatement; eliminates the twice yearly (or more) grading and need for gravel; up front costs can be mitigated to eliminate the need for additional tax money (or assessments) to do the work.
  - **Cons** – Up front costs; speeders; prep work of eliminating trees in easement (already underway); prep work of notifying homeowners to move fences that are outside property lines in road easement; long-term loan (10 year).
- **What we need from members** – **Bid Committee** to put together bid requirements and judge bids (background in road maintenance or government bidding process helpful, but not required); **Snow Committee** of members from around the neighborhood to advise board when to call for snowplow; **Sign Committee** to advise on missing signs and help put up signs.
